21400 – Ayamonte (Huelva)

Ayamonte, 12 October 2024

Yesterday, Friday 11th October, the President and Vice President of the EUC held a meeting with the Mayor Alberto Fernandez and the Councillor Juan Francisco Cobo.

Item One This was the formal announcement by the Town hall of the transfer of the municipal plot (S1), where the sports field is currently located, to the mining company 'Eméritas Resource' for the construction of a building which will house a training room, offices and a data centre as a private part for the company and then a car park, a new sports field and multipurpose premises for municipal use by the EUC and the Neighbourhood Association. There are no plans yet but we will be watching the evolution of the project to see them and be able to explain it to the owners of Costa Esuri.

The plot is ceded for 30 years, 50% of the plot will be for the use of the company and the other 50% for public use. The Mayor justified that this was the only way to attract the company and to compensate for the leasing with its contribution to the public endowments.

Item two This topic was discussed, which has been reiterated at every meeting, the situation of the creation of the register of collaborating entities by the council, which has been obligatory since the Junta de Andalucía transferred these competences to the Ayuntamientos but has not yet been created by Ayamonte for at least two years. It is a register where the EUC's and all the minutes and other documents for the good functioning of the EUC's are registered.

Item Three, we insisted again on the execution of the pending works. We insisted on the necessary acceleration to execute the projects with the money from the guarantees, the Mayor told us that he only has two employees preparing the technical specifications for the tenders and they are months behind schedule, there are five projects ahead of ours.

Item Four, we asked again for detailed information on the debts of the owners, to which we were told to make an appointment with the directors of the Tax Agency of the Diputación and on this occasion we will be accompanied by the Treasurer of the Town Hall to see if we can get all the data at once.

It was here we left the meeting, there was no time to deal with any more business, it was already late.
